SUMMARY

Front-End Developer with 5+ years of experience building scalable web applications and enterprise dashboards. Specialized in React (TypeScript) and Vue.js with strong expertise in component-based architecture, state management, and performance optimization. Proven experience building complex UI systems including pricing engines, role-based access control (RBAC), analytics dashboards, and real-time notification systems.

EXPERIENCE

Front-End Developer | AstroCodez | Dec 2025 – Present

- Leading front-end development using React (TypeScript) and modern component-based architecture.
- Architecting and structuring scalable UI systems and reusable component libraries to support long-term product growth.
- Defining front-end standards and best practices to ensure maintainability, performance, and code consistency.
- Collaborating closely with product and backend teams to translate business requirements into efficient technical solutions.
- Driving performance optimization and responsive design across the platform.

Front-End Developer | OneDoor | Nov 2025 – Jan 2026

- Designed and developed scalable web applications using React (TypeScript).
- Built dynamic, reusable UI components and optimized application performance.
- Collaborated with cross-functional teams to deliver efficient and maintainable front-end solutions.

Front-End Developer | No Name Group | Jul 2025 – Oct 2025

- Developed and maintained the **Setalkel admin dashboard** for web and mobile ordering systems.
- Built responsive interfaces for product catalog management (variants & categories).
- Implemented order management workflows with container-based shipping logic.
- Developed multi-tier pricing views with user-specific rate handling.
- Applied role-based access control at the UI level.
- Integrated Firebase push notifications and interactive analytics dashboards.

Front-End Developer | Apps&more | Aug 2024 – Dec 2024

- Designed and maintained web applications using Vue.js and React.js.
- Built responsive and user-friendly interfaces using modern front-end technologies.
- Improved user experience and performance through UI optimization and clean component architecture.

Front-End Developer | Freelance (Self-employed) | Oct 2020 – Jan 2026

- Delivered end-to-end front-end solutions for multiple clients using React (TypeScript) and Vue.js.
- Developed dynamic dashboards and interactive user interfaces.
- Implemented state management, routing, and API integrations for scalable applications.
- Improved application performance through code optimization and component restructuring.

Technical Skills

- **Front-End:**
React (TypeScript), Vue.js, Redux, Vuex, React Router, Vue Router, Hooks, Composition API
- **Styling & UI:**
HTML5, CSS3, Tailwind CSS, Bootstrap, Material-UI
- **API Integration:**
RESTful APIs, Axios
- **Programming:**
JavaScript (ES6+)
- **Tools:**
Git

EDUCATION

Yarmouk Private University

Bachelor's Degree in Computer Software Engineering | 2016 – 2021
